THE EVOLVING THIRD-PARTY RISK MANAGEMENT LANDSCAPE

More thid parties

80%

of Supply Chain Executives Plan to Increase Outsourcing Budgets

Easier to Access Data

An average **181 vendors** Have Access to an Enterprise's Internal Network

Increase in Risk

Nearly

Half of Data Breaches

Are caused by a Third-Party Service Provider

How We Solve It

Vendor360

CENTRL Vendor360 is a simple solution to automate the process of on-going vendor risk analysis while maintaining control of third-party risk and oversight.

Our platform enables companies to identify, manage, assess and mitigate third-party risks across all stages of the vendor lifecycle.
